CLASS OF 1969

## *In Memory of Denise Schulz*

Thanks for your notes  
They were really great  
'Course hearing from you  
Is always first-rate.

For those who might envy me,  
Please get in touch.  
I'll gladly change places,  
The going is such!

It's no fun staying home  
And having to rest,  
Even if you do miss  
A biology test.

Whether in Latin, Spanish, French, or English,  
At least you get to speak.  
For I'm told to keep quiet,  
I'm supposedly "too weak."

In Geometry class you're drawing.  
I am, too.  
Doodling is almost all that's left,  
When most things, you aren't permitted to do.

And thanks for the prayers,  
I'll say some for you  
While I'm wishin' and hopin'  
To get back to Homerroom 2.

"Hide not your talents; they for use were made.  
What's a sun-dial in the shade!"

Benjamin Franklin

We are now ready to show the world our talents. We have spent twelve years preparing and now we are ready.

Some of us will be good workers. Some of us will be good students in college. Others will go on to defend our country. But whatever we do, it will be our best.

We will use the qualities that Marquette has taught us. Team work--but yet independence. Respect for authority--but also the courage to stand up for what we believe.

We can never forget Marquette. It is now part of us. It will always be part of us whatever we do--wherever we go.
